Work Experience

Web Development Intern – DCinfotec, Thriprayar

August 2025 – November 2025

- Developed and maintained web applications using ASP.NET MVC and C#.
- Built responsive front-end modules with HTML, CSS, JavaScript, and Bootstrap.
- Implemented secure login and registration modules with authentication mechanisms.
- Used Entity Framework and LINQ for database operations and querying.
- Integrated SQL Server databases and performed data management tasks.
- Developed APIs for seamless communication between front-end and back-end.
- Debugged and resolved issues to enhance application performance.
- Collaborated with senior developers to deliver features on time and as per requirements.

Project

1.College Website (BSc Project) | 2019 – 2022

- Designed and developed a responsive college website using PHP and MySQL.
- Implemented user-friendly pages to display academic and institutional information.
- Managed database operations for storing and retrieving website content.

2.Pothole Detection System (MCA Project) | 2023 – 2025

- Developed a smart pothole detection system to support fast and accurate road maintenance decisions.
- Designed web interfaces and application logic using ASP.NET and C#.
- Utilized SQL Server for data storage and management.

Strength

- Strong communication and teamwork skills
- Quick learner, adaptable to new technologies
- Dedicated and detail-oriented approach to development
